

SUMMER CAMP 2017

STEAM CAMPS

YOUTH ENTERING 2ND -5TH GRADE

Camp includes our traditional fun and diverse programming with engaging STEAM activities to keep bodies and minds active during the summer.

Week 1 June 19th – 23rd Wacky Science

Time to grab your gloves and lab coats for this week's wacky experiments. Campers will mix and concoct crazy creations that will erupt, foam and fizz as we explore chemistry, weather and energy in this hands-on week of outrageous and wacky science. This is a week campers will not want to miss!

Week 2 June 26th - 30th Exploring the Ancient World

Join us as we adventure through time, exploring five ancient civilizations! History meets science in this week's camp. Campers will hear the myths and experiment with the technology created in Greece, Egypt, China, and more, hitting up some of the early superpowers!

Week 3 July 5th – 7th Science of Superpowers

Superheroes come to life as campers study spiders, bats, birds of prey and other wild spirit animals of some of the most famous heroes. From the web-spinning skills of Spiderman to the technological prowess of Ironman, campers will examine the secrets behind fictional superheroes and discuss what makes a real-life hero. What will your superpower be?

Week 4 July 10th - 14th Challenge Extravaganza

Calling all inventors! This week campers will become their very own inventors as they work to design and create their very own inventions to complete fun challenges. Through the hands-on exploration of gadgets like pulleys, levers, gears and screws campers will learn how amazing inventions work! Their imagination is the only limit on this fun week of inventiveness!

Week 5 July 17th – 21st A Walk on the Wild Side

Campers will become safari journalists and ecologists as they learn about how ecosystems around the world function and the diverse animals which live in them. No rock will be left unturned as they traverse around the globe to report on a variety of regions from the arctic to the forest!

Week 6 July 24th – 28th Fun Factor

This week campers will have a blast with exciting and silly challenges! We'll test our reflexes in amusing ways, challenge ourselves at minute-to-win it style games, and learn some nifty facts throughout... come join us as we really amp up the fun factor!

Week 7 July 31st – Aug 4th Space is the Place

Ready, Set, Blast Off! Space is our destination this week as we explore our earth, the galaxy and beyond. Campers will embark on an educational journey through space including the exploration of some of the sciences and technologies that make such explorations possible. Get your rocket ships ready!

Week 8 Aug 7th - 11th Myth Busters

Explore science the myth busters way! Campers will become their very own myth busters as they seek to solve the various mysteries of this week's camp using hands-on experiments and the scientific method as they put myths to the test. Who knows what we will uncover!

Week 9 Aug 14th - 18th H₂O!

Water, Water, Water! This turbocharged week of water will be fun from head to toe. Campers will dive into activities that explore the mysteries of the past and the possibilities of the future as they explore water in every form possible. Get ready to get wet in this week of fun in the sun and H₂O. Swimsuits, towels and change of clothes are required!

Week 10 Aug 21st – 25th Endless Summer

End the summer with a bang and the best! During each week of fun-packed camp activities all summer, campers will vote for their personal favorites. During this final week, votes will be tallied and the winning activities will be enjoyed one last time. Your vote decides how we end this summer with the best of the best!
