

SUMMER CAMP 2024

STEAM CAMPS

YOUTH ENTERING 1ST-5TH GRADE

STEAM Camps are composed of fun activities that feature science, technology, engineering, arts, and math concepts.

Week 1: June 10th - 14th Space Expedition

Get ready to blast off because we are headed to space! Join us on our expedition as we will learn about the planets, the moon, the stars, and of course the spaceship that takes us there. Do you have what it takes to be an astronaut?

Week 2: June 17th - 21st Edible Science Experiments

This week we will be doing science experiments that we can eat! Bring your hunger for science as we learn about a variety of topics ranging from solar energy to soil, our senses, and so much more!

Week 3: June 24th - 28th Animal Kingdom

We will be exploring our world by learning about the animals that call Earth their home! Our adventure will take us to some of the different types of habitats where animals live including the ocean, the desert, the cold polar habitat, and the tropical rainforest.

Week 4: July 1st - 3rd Builders & Engineers

Put your thinking caps on and get your creativity ready! We will be practicing our problem-solving skills and teamwork as we take on this week of building and engineering challenges!

Week 5: July 8th - 12th Lab Explorers

A week of fun and exciting science experiments awaits you! Prepare to get your hands a little messy as we experiment, create, and explore some chemical reactions. Volcanoes, slime, and unpopable bubbles are just a few of the fun activities we will be doing this week!

Week 6: July 15th - 19th Around the World

Join us for a trip around the world! We will be exploring the Seven Wonders of the World and the continents where they are located. Put on your seatbelt and prepare for a flight around the world as we make stops in South America, Africa, North America, Asia, and Europe!

Week 7: July 22nd - 26th Rainforest Adventure

Rainforests are one of the most diverse places for plants and animal species in the world! Join us as we explore the four layers of the rainforest and the plants and animals that live there. Campers will create a 4-layer diorama model of the rainforest!

Week 8: July 29th - Aug 2nd Inventor's Challenge

This week we will be learning about some famous inventors and what they invented. We will also be creating some inventions of our own! Prepare for a week of creativity, exploring, and fun!

Week 9: Aug 5th - 9th Music Around the World

Come and join us on a trip around the world as we explore music from different cultures. We will spend our time listening to and learning about music and construct a few instruments for us to make music of our own!

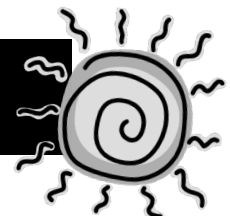

Week 10: Aug 12th - 16th Jurassic Dinosaur Adventure

Get ready to hop into a time machine and travel back to the time of the dinosaurs! On our adventure we will meet some of the different types of dinosaurs, become paleontologists and learn about fossils, and explore where they lived and how they became extinct.

Week 11: Aug 19th - 23rd Under the Sea

Take a dive with us into the ocean for some underwater exploring! This week we will learn about some of the animals that call the ocean their home, experiencing all levels of the ocean and playing with the sand and seashells along the way.

CLUB CAMP

Club Camp: Weekly June 10th - Aug 23rd

Looking for something a little less structured this summer that keeps youth engaged? Club Camp offers weekly non-themed camps that include our traditional fun and diverse programming with engaging activities to keep bodies and minds active during the summer.
